

Benjamin Verdonck // **Even I must understand it**

Benjamin Verdonck (1972) is a versatile artist, an actor, a writer and a producer of theatre. Between 2015 and 2017 he realised a project 'EVEN I MUST UNDERSTAND IT' in which he demonstrates that art can redesign the public spaces and the society. The projects in 'EVEN I MUST UNDERSTAND IT' took different shapes through the process, like a representation, a lecture, an exhibition or an installation in a public space. The book is a compilation of the two year project, where all projects will be discussed thoroughly.
